BERRIES for the HOME GARDEN

Also COMMERCIAL PLANTINGS

Blueberries That Are Blue

MANY of the so-called Blueberries of the coast country are BLACK. The Blue Blueberry is much superior. We can furnish them. The Blueberry has been so widely advertised that there is not much to be said, except that they do best on the moist, acid soils of the coast country. They should be in every home garden, and are recommended as a high grade commercial proposition. Prices: 10 to 50 @ 35c; 50 to 100, @ 30c; 500 and over, @ 25c

The Young Dewberry

The Coming Berry of the Coast Country

It is a hybrid of the Loganberry and the Austin Dewberry. Is vigorous and prolific.

Produces a large pink fruit, turning to a dark wine when fully ripe, and has a distinct Raspberry flavor. Unexcelled for Juices, Jams, Jellies, etc.

This berry is highly recommended by Prof. Geo. M. Darrow, of the Bureau of Plant Industry at Washington, D. C. It bids fair to be one of the best fruits ever introduced for the coast country. Supply is limited. Price: \$1.50 per dozen; \$7.50 per 100, postpaid; \$50.00 per 1000, charges collect.

One More Berry Which Has Attracted Much Attention Because It Is Absolutely Thornless

The Austin Thornless Dewberry

This fruit is a sport of the Austin Dewberry which is so popular in Texas. Very vigorous and prolific. Berries equal to the Austin or other varieties of the Dewberry family.

The joy of picking fine luscious fruit without thorns is a special inducement to plant this variety.

Price: \$1.00 per dozen; \$5.00 per 100; postpaid
